“For **OpenSuperQPlus** – the large-scale follow-up to the project OpenSuperQ – we are bringing together European specialists for all the components of a world-leading framework – be they in the public or private sector. The technological challenge of beating errors in quantum computers and scaling them up towards 1,000 qubits needs all hands on deck from the outstanding quantum ecosystem in Europe.”

Start Date
1 March 2023

Duration
42 Months

Budget
€ 20 Mil.

28 Partners
10 Countries

Q.QUANTUM

OpenSuperQPlus is part of the Quantum Flagship initiative of the European Union. www.qt.eu
